

Honoured Sponsor/Exhibitor,

You are kindly invited to participate at the 2nd Central European Forum for Microbiology jointly organized by the Hungarian Society for Microbiology, the Croatian Microbiological Society and the Foundation of the Hungarian Society for Microbiology at Hotel Helikon, Keszthely (8360 Keszthely, Balatonpart 5.; www.danubiushotels.com/helikon). The scientific program will cover all major branches of microbiology. For detailed information on the topics please refer to the First Circular and Call for Abstracts or visit us at our homepage (www.mmt.org.hu)! Over 300 colleagues from European countries are estimated to participate the conference.

In order to inform the participants from the latest developments in microbial diagnostics, research and biotechnology an exhibition will be organized for laboratory suppliers, publishers, and consultants during the meeting. A sponsorship program ensures that contributing organizations receive maximum exposure during the meeting. You are kindly invited to exhibit instruments, products, advertise products in the scientific documents of the conference or organize a company sponsored minisymposium. The actual location of the exhibition will be the swarming passages among the lecture halls. Advertisement leaflet inserts can be placed into the conference bag or printed into the program booklet or the abstract booklet (supplement of Acta Microbiologica et Immunologica Hungarica). Company sponsored symposia are suggested to be organized at the end of scientific sessions or even during the coffee break either in the lecture halls of the sessions or in other seminar rooms of the Convention Centre.

Please kindly contact Károly Máriaiget, the Secretary General of the Hungarian Society for Microbiology about the details (fotitkar@mmt.org.hu, tel: +36-1-381-2177; fax: +36-1-381-2178)
